

## New Attendance Module is Available

Our new Attendance module allows you to record attendance of registrants just by having them swipe a card with a barcode at an entrance location. If you want an easy way to track attendance, this functionality is precisely what you have been looking for. In addition to this ability, many other great features will be added to this module in the future.

Class Schedule	Count
Mon 03/22/2010 8:00am - 5:00pm	6
Tue 03/23/2010 8:00am - 5:00pm	
Wed 03/24/2010 8:00am - 5:00pm	
Thu 03/25/2010 8:00am - 5:00pm	
Fri 03/26/2010 8:00am - 5:00pm	
Sat 03/27/2010 8:00am - 5:00pm	

Once enabled and setup, the Attendance module will add a new tab to the class definitions. Turn on the attendance tracking for the class and add the dates and times that you want to be able to track attendance for. You will be prompted to automatically add them if you have defined a start and end date and class times for the class.

Choose *Enable Admittance Scanner for Interactive Sign In*. Set the window for check in time. SportsMan SQL will look to see if the individual swiping the card is registered for an activity that begins within the period of time specified by the *Grace Period*.

Check the box next to *Add an Admittance Record for Class Attendance* and choose an entrance location, if you wish for attendance card swipes to be counted in the admittance reporting in SportsMan SQL. Any supported admittance device can be used for the Interactive Sign In functionality.

Click *See/Enter Attendance* for a list of registrants and you will also be able to manually enter or correct their attendance record.

Contact our sales team for pricing and details if you are interested in the Attendance module.

Look for more new great features and updates in our upcoming newsletters!

## Conference Schedule

Visit Debbie at the MRPA conference April 14 at the Mystic Lake Casino, MN, and Paul at the IPRA conference April 13 at the Sioux City Convention Center, in Sioux City, IA. Debbie will also be at the Midwest Regional Conference, in Kearney, NE on April 18 and 19. Be sure to stop by and say hello if you are present!

## Save Big When Setting up Credit Card Processing

If you are a municipal or government facility or department and have been waiting to implement credit card processing because of cost or difficulty to implement, wait no more. Peak is glad to feature North American Acquiring as a partner in the payment gateway industry.

North American Acquiring specializes in the processing needs of state and local government entities. They provide their clients access to a little known government rate program that typically saves between 20% and 30% off of their monthly processing bill. They work diligently on behalf of their clients to submit the appropriate paperwork to Visa and MasterCard's government division.

With over 12 years in the industry North American Acquiring has the expertise required to properly implement the discounted government program for all software and terminal based applications.

Only 15% of America's government entities are currently utilizing a government interchange program. Visit [www.northamericanacquiring.com](http://www.northamericanacquiring.com) or call them at 877-481-2756 and let them show you how easy this program is to integrate.
